Access to Distributed Learning Materials

Bob Martens • Vienna University of Technology
• Development of learning materials
• Paperbased vs. e-media
• Implementation & experience
Learning materials

- Education in presence - collective
- Learning activities – individual

- Need for accompanying/complementary aids to prepare for examination
So far?

Controlled distribution of .... paper-based media: scripts, syllabi, articles, ...

- Number of copies ?
- Color images ?
- Handwritten annotations !
e-media - novel options?

- Computers/Laptops ?!
- Smartphones ?
- Tablets !!
Implementation & experience

• Digital file distribution - Compact storage
• Availability
• Anywhere – anytime
• Ease-of-handling
• Minimal efforts of maintenance
• Searchability of PDF-files
• Annotation via pre-installed apps
Connection to an existing Virtual Learning Environment via standard internet browser
